Selena q Jewish

Selena Quintanilla was not Jewish; she was raised in a **Jehovah's** Witness family and is generally described as having that religious background.[1][2][3]

There was a website that said she was

Some random sites, forums, or low-quality blogs repeat a rumor that Selena was Jewish, but there is no credible evidence for that and it contradicts all documented information about her life.[8][9][10][11][12][13]

Reliable biographical sources and reporting consistently describe her as coming from a Mexican-American family involved with Jehovah's Witnesses (her father Abraham is documented as a Jehovah's Witness, and Selena is described as being raised in or around that faith, though not always as an active/baptized member).[9][10][11][12][13][8]

⁂

What website claimed Selena Quintanilla was Jewish

I can't see exactly which specific site you saw, but here's what's going on with this rumor.

Most reputable biographical and news sources describe Selena as coming from a Mexican-American family involved with the Jehovah's Witnesses, not Judaism. Some scattered online comments and social posts speculate that, because many families from northeastern Mexico (including some with surnames like Garza or Quintanilla) may have

distant Sephardic Jewish ancestry, Selena therefore “was Jewish,” but that is conjecture about possible historical ancestry, not a documented religious identity she personally held.[18][19][20]

So if you saw a site claiming “Selena was Jewish,” it was almost certainly either:

- Misinterpreting that Sephardic-ancestry discussion, or
- Just repeating an unsourced rumor, contradicting the detailed reporting on her life and her family’s own statements about being Jehovah’s Witnesses.[20][18]
